Story of Jacob reuniting with his son

Today's Bible lesson is about a family seeing each other again after a very long time.

Joseph invited his brothers to bring their families to Egypt to live because there was still 5 years of famine and he didn't want them to die. Joseph gave his brothers wagons and food to get back home. When the brothers told Jacob that Joseph was still alive and governor of Egypt, Jacob couldn't believe what they were saying. Jacob decided to go see Joseph. He was 130 years old.

Joseph climbed in his chariot to go see Jacob when he arrived in Egypt and they were so happy to see each other! Jacob went before Pharaoh and after they talked, Joseph took his family out to the best land in Egypt. Pharaoh told them to live there. Jacob was able to meet Joseph's 2 sons Manasseh & Ephraim and spent 17 happy years with his family.

God knew what he was doing. All the time Jacob was grieving for Joseph, Joseph was alive and God was using him so that he could keep his family alive during the famine. We often feel that we don't want to trust God because of circumstances. But God knows everything, and often things are happening that we have no idea about

Questions

- How are you staying connected to your family and friends?
