

# Through The Roof

## VERSE

A man who hadn't walked for a long time now  
He had friends who heard that Jesus was a few doors down  
And though the house was full of people, he had friends so full of faith  
They knew the love that Jesus had to heal and make a way

## PRE-CHORUS

We're not interrupting Him, when we think of dropping in  
He's just so very glad to see us, glad we came to Him  
We're not interrupting Him, when we think of dropping in  
He knows exactly what we need before we even ask Him

## CHORUS

Jesus makes my faith ...  
Go through the roof, through the roof, through the roof, through the roof  
Go through the roof, through the roof, through the roof, through the roof  
Go through the roof, through the roof, through the roof, through the roof  
Jesus makes my faith go THROUGH THE ROOF!

## BRIDGE:

I will take my friends to Jesus, when they need to meet with Him  
We will walk into His presence and we will rise and walk again!

## FINAL CHORUS

Through the roof, through the roof, through the roof, through the roof  
Go through the roof, through the roof, through the roof, through the roof  
Go through the roof, through the roof, through the roof, through the roof  
Jesus makes my faith go through the roof, through the roof, through the roof!
